

Sanofi Pasteur ACRONYM RAP - Determined to Succeed

Music track: Loud

(Spoken to opening 32 beats.)

Brandon: Uhhh

Brad: Uhhh

Brandon: Yeah

Brad: Yesss

Brandon:

You are now at the Red Rock, for the 2014 POA... Please return your trays to their upright positions and thoroughly disinfect the area. You're determined to Succeed. You've had a long year, and we've got the cure. Prepare to be vaccinated.

Both:

Sanofi Pasteur, Sanofi Pasteur, Determined to Succeed, the vaccine master.

Sanofi Pasteur, Sanofi Pasteur, Determined to Succeed, the vaccine master.

Brandon:

If you don't like hard work you're best to step cuz, truth be told, this is the year of the rep.

They go above and beyond to protect against disease. Bringing their people: Dr's and patients ease.

Brad:

Specialists never hide. Up for a challenge no matter the weather, they doctor doctors' minds on every endeavor.

Making top-level decisions, saving the lives of babies, keeping their entire customer base... gravy.

Doing what it takes to make sure babies & adults are protected: ailments detected. People connected. Epidemics deflected. Pride and leadership reflected. Always on point - no one ever neglected.

Brandon:

I think we can shake off any possible aggravation, when the supply chain is back with no allocation.

I know you may be skeptical, don't roll your eyes around, cuz these top- level cats are holding everything down.

Both:

Our pride is back. Our pride is back, & Gladys from MLR who was ill is back.

Say! Our pride is back. Our pride is back. We got this team so prepared for attack.

Brandon:

Mercenary, Warrior, Adventurer, Pioneer. You're bigger heroes than DeNiro in "Cape Fear".

But let's be honest the real heroes are the vaccine specialists. The ones in the field... bow your heads to this.

(Call and response with audience)

Brandon: When I say Sanofi, you say Pasteur.

Both: Sanofi.

Audience: "Pasteur"

Both: Sanofi.

Audience: "Pasteur"

Both: Louie.

Audience: "Pasteur"

Both: Milk.

Audience: "Pasteur"

Brad: Ized?

Brandon: Brad, tell 'em why....

Brad: Cuz we got DSMs, BSAs, CAMs, CARs, and RAMs. Please take over Bran, too many acronyms.

Brandon: Sure. PHMs, M&S n' R&D, MLR & the VP, Dan Casey.

Brad: Speaking of acronyms, I think you're OK.

Brandon: You think I'm OK?

Brad: Yeah, you're OK.

Brandon: Just OK doesn't make me wanna stay.

Brad: The end of the song, why you actin this way?

Both:

Sanofi Pasteur, Sanofi Pasteur, Determined to Succeed, the vaccine master.

Sanofi Pasteur, Sanofi Pasteur, Determined to Succeed, the vaccine master.

Brad: (*spoken*) Sanofi Pasteur, you are # 1.

Brandon: (*spoken*) Side Effects may cause awesome.
